

# Early Action Referral Language

The University of Colorado Denver revised their Early Action emails to connect students to campus resources to support their success.

Hello Michelle:

The LRC team hopes this email finds you well as we navigate the rest of the spring 2021 semester remotely.

We received a referral from one of your professors that you might benefit from some of the services that we offer in the Learning Resources Center. We provide a series of services for all CU Denver fee-paying students that may be able to assist you throughout the semester and beyond. We have a variety of tutors for historically challenging courses such as Chemistry, Biology, Math, Physics, etc. Other subjects include Psychology, Economics, Finance, Civil and Electrical Engineering, Modern Languages, and more. Feel free to email us or visit the virtual front desk to see if we can help with YOUR course!

Tutoring comes in a variety of Scheduled Group Tutoring, Guided Study Groups, and Supplemental Instruction Sessions (SI) via Zoom. The LRC also offers scheduled group Study Skills Workshops in addition to individual coaching sessions (goal-setting, learning strategies, time management, procrastination, test-taking, test anxiety, general study skills, and more).

Please note that the LRC utilizes Navigate through your student portal to schedule our services so specific details and instructions are available online at [www.ucdenver.edu/LRC](http://www.ucdenver.edu/LRC). Navigate will not allow you to sign-up for any service that is during a scheduled synchronous or asynchronous class. Also feel free to visit our Virtual Front Desk on Monday-Friday from 8:00-5:00 as we'd love to speak with you and help you sign up for any of our services. For more detailed information of all of our services, please see the attached flyers and visit our website at [www.ucdenver.edu/LRC](http://www.ucdenver.edu/LRC). You can also reach us via email at [LRC@ucdenver.edu](mailto:LRC@ucdenver.edu).

We look forward to hearing from you soon and wish you all the best this semester. Please take good care of yourself and keep up the fantastic work!

Michelle & the LRC Team
